Note of series

Discovering Exeter:

- 1 St David's, by Joyce Greenaway
- 2 St Leonard's, by Gilbert Venn
- 3 Heavitree, by Trevor Falla (in preparation)

This is the second in the Civic Society's series of booklets, 'Discovering Exeter'. The success of the first one, St David's, has encouraged the Society to continue the series until all the suburbs of Exeter – as well as the ancient city itself – have been covered.

Exeter has a long and distinguished history and, despite much self-inflicted damage, has preserved a great deal of its architectural heritage. Part of the heritage is described and illustrated in this booklet which gives an outline history and descriptive tour both of the residential neighbourhood of St Leonard's and the working area around the Quay.

The Society is greatly indebted to those members who have helped in the preparation of the booklet and especially to Gilbert Venn who has put together a great deal of interesting material in an attractive and readable way.

Generous grant-aid from the Iverdean and Northcott Trusts is gratefully acknowledged.
